

Reference design: every block is a placeholder named by the common type of part that goes there.  
Replace each placeholder footprint with the footprint of the chosen part; the nets do not change.  
Connector contact groups and mating order: PBS-HW-SCM-01 REQ-010 (pad length = mating order).  
Fit: 'Class M only' parts are omitted in Class H; U24 is fitted in SCM-L, JP1 in SCM-S.  
Heaters H1 and H2 are film heaters bonded to the back of the board.

Generated by PBS-HW-LIB/kicad/tools/generate.py  
PBS-HW-SCM-01 open reference design; generic placeholders, no part numbers
